JON ASHER PHOTOGRAPHY

Debra May Himes, ASID, is the owner of a Phoenix-area award-winning interior design firm, Debra May Himes Interior Design & Associates, LLC. Serving clients throughout Arizona and states nationwide, her professional projects encompass various commercial venues, high-end custom homes, model homes and product design.

Himes' keen eye and dedication to design excellence has been recognized throughout her 30-plus year career. She has been published both nationally and locally, and has received numerous design awards for her environments on a local and national level.

A passion for exceptional custom furniture and product design inspired Himes to create her own collection of award-winning furniture pieces, which now compose her Jonathan David™ furniture line. She also designed a nationally awarded drapery finial line, "Jewels"™ by Debra May Himes, for an industry manufacturer.

Himes is devoted to exceptional design, and works closely with her clients to ensure their projects are unique and specific to their needs. Working in conjunction with the architect and builder during the initial conceptual/design phase, she is a key ingredient to the homeowner's team of professionals.
